At **17:02hrs** on **Monday 4th January 2010** Humber Coastguard requested the All Weather Lifeboat to launch to the assistance of the 19m Seahouses based fishing vessel, "Good Fellowship", which had suffered engine failure approximately 12 miles south east of Seahouses. It was agreed to launch the All Weather Lifeboat "Grace Darling" immediately and the crew were paged. The lifeboat was launched with some degree of care due to the very icy conditions. The sea was moderate/choppy, in a north easterly wind. The Lifeboat was underway at 17.13hr, and reached the disabled vessel at 18.03hr. At the skipper's request, a tow was passed and the vessel was taken in tow at 18.09hr to the safety of Seahouses Harbour, arriving at 20.05hr, where repairs could be effected. The Lifeboat returned to station and was refueled and ready for service at 20.55hr.
