PASSENGER COLLAPSED ON PASSENGER VESSEL OFF SEAHOUSES

DATE/TIME LAUNCHED	RETURNED TO STATION	LIFEBOAT(S) LAUNCHED	WEATHER	WIND	SEA STATE	VISIBILITY
Sun 11 th July 2010 11.00hr	11:55hr	Lifeboat Crew with Landrover	n/a	n/a	n/a	n/a

At 11:00hr on **Sunday 11th July, 2010**, **Humber Coastguard** paged the Seahouses Launch Authority, and requested the assistance of **Seahouses Lifeboat**. A male passenger aboard the vessel "Glad Tidings 5" which was taking trips to the Farne Islands, had collapsed. Passengers were giving CPR, and the skipper was requesting oxygen. An ambulance had been called to meet the vessel at Seahouses. The vessel was approximately 12 minutes from Seahouses Harbour. The Lifeboat Crew were paged, and used the Station Landrover to bring oxygen and a stretcher to the boarding steps. The Duty Ambulance First Responder was also on scene to meet the vessel. On arrival, every effort was made to resuscitate the male passenger, including the Responder using his cardiac defibrillator. An ambulance crew arrived and efforts continued, but unfortunately despite the best efforts of all present, they were unable to revive the 49yr old man. He was removed by ambulance from the scene, while the crew and local police looked after the casualty's very distressed wife.

The Lifeboat crew returned to station at 11.55pm ! *The Crew would like to extend their deepest condolences to the deceased male's wife and family, who we understand were on a day visit to the area. They are believed to reside in the Cleveland area. The RNLI are unable to release any further information as to his identity.*

Ends.
